INSTRUCTIONS: Complete for each patient with known or suspected dilated cardiomyopathy who is scheduled for a clinical echocardiogram. The form should be completed on the date of the echocardiogram.

Definition of dilated cardiomyopathy: Dilated cardiomyopathy (also referred to as congestive cardiomyopathy) is a disease of the heart muscle characterized by dilatation and impaired contraction of the left or both ventricles.

Section A: KEY IDENTIFYING INFORMATION

A1. Study Identification Number                      REMOVED
BLIND_ID
BLIND_SITE

A2. Date of eligibility screening                    REMOVED
AGE_SCREEN

A3. Date of echocardiogram                          REMOVED
AGE_IECHO

A4. Date of form completion                         REMOVED
AGE_COMP

A5. Name of person completing form                  REMOVED
PRINT FULL NAME                                  INITIALS

Section B: PATIENT INFORMATION

B1. Date of birth                                    REMOVED

B2. Gender                                          MALE.............. 1  FEMALE .............. 2

B3. Race                                            WHITE .................................................................1
BLACK OR AFRICAN AMERICAN .................................................................2
ASIAN .........................................................................................................3
AMERICAN INDIAN OR ALASKAN NATIVE ..........................4
NATIVE HAWAIIAN OR OTHER PACIFIC ISLANDER ...............5
MORE THAN ONE RACE .................................................................6

   a. Specify .................................................................................... REMOVED
   OTHER ..........................................................................................99

   b. Specify .................................................................................... REMOVED
   UNKNOWN ..................................................................................-8

B4. Is patient of Hispanic or Latino origin? YES .................1  NO .................2  UNKNOWN ..........-8
### Section C: INCLUSION CRITERIA FOR BASELINE ECHOCARDIOGRAM

</table>

Patient is **not eligible** for a study echocardiogram if any answer is in a shaded area, i.e., if any of C1-C4=NO or any of D1-D12=YES

Section E: DETERMINATION OF ELIGIBILITY PRIOR TO PERFORMANCE OF BASELINE ECHOCARDIOGRAM

E1. **Is patient eligible for a study echocardiogram?** ECHOELIG

   YES ....................... 1
   NO ....................... 2 (END)

Section F: PATIENT CONSENT

F1. **Is the patient old enough to consent to study participation without informed consent by a parent or legal guardian?** PTADULT

   YES ............................. 1
   NO ............................... 2 (F2)

   a. Did the patient sign the informed consent document? PTCONS

      YES ............................. 1 (END)
      NO ............................... 2 (END)

F2. Did the patient’s parent or legal guardian sign the informed consent document? PRNTCONS

   YES ............................. 1
   NO ............................... 2 (END)

   a. Did the patient sign the age-appropriate assent or consent document? PTASSENT

      YES ............................. 1
      NO ............................... 2
      NOT APPLICABLE .... - 1

If [F1a=YES or F2=YES] and [F2a=YES or NOT APPLICABLE],
complete study echocardiogram and Forms V101W and V101

<Created variable> Consent to VVV study? CONSENT:
